Dear CCS Student Travel Grant Committee,

I am writing to support Zhikun Zhang's application for the Student Travel Grant. Zhikun is first author of a paper accepted to appear in 2018 CCS.

Zhikun is in the PhD program of Zhejiang University, and has been a visiting student at Purdue University for about a year. It has been rare in my experience to have a visiting student making enough contribution on a paper to be a first author on a paper in a top conference.

Zhikun has been supported by a grant in China for his visit. He is not supported by any of my current grants.
